1. Общие данные

Проект межевания подготовлен на основании проекта планировки территории, который разработан ООО «Реалпроект» в 2019 году.

Подготовка проектов межевания территории осуществляется применительно к застроенным и подлежащим застройке территориям, расположенным в границах элементов планировочной структуры, установленных проектами планировки территорий.

Установление границ и другие действия по формированию земельных участков являются составной частью формирования недвижимого имущества для целей государственной регистрации прав на него, налогообложения объектов недвижимости, разработки градостроительных планов земельных участков.

Проект межевания территории линейного объекта выполнен в соответствии с действующей законодательно-нормативной документацией:

- Градостроительный кодекс Российской Федерации принят Государственной Думой от 29.12.2004 года №190-ФЗ;
- Земельный кодекс Российской Федерации принят Государственной Думой от 25.10.2001 года №136-ФЗ;
- Лесной кодекс Российской Федерации принят Государственной Думой от 04.12.2006 года №200-ФЗ (ред. От 03.07.2016);
- Водный кодекс Российской Федерации принят Государственной Думой от 03.06.2006 года № 74-ФЗ;
- Закон Ставропольского края «Об объектах культурного наследия (памятниках истории и культуры) народов Российской Федерации в Ставропольском крае» принят Государственной Думой Ставропольского края от 16.03.2006 года №14-кз;
- Федеральный закон «Об объектах культурного наследия (памятники истории и культуры) народов Российской Федерации» принят Государственной Думой от 25.06.2002 года № 73-ФЗ;
- СП 42.13330.2011 «Градостроительство. Планировка и застройка городских и сельских поселений», утвержден приказом Министерства регионального развития Российской Федерации (Минрегион России) от 28.12.2010 № 820 и введен в действие с 20.05.2011г.;
- Нормативы градостроительного проектирования Ставропольского края, утвержденных приказом министерства строительства и архитектуры Ставропольского края от 30.12.2010 года №414;

- Проект межевания разработан с учётом сложившейся планировочной организации прилегающих территорий, а также с учётом перспектив развития свободных от застройки территории.

Инв. № подл.	Подпись и дата	Взам. инв. №	ФГБУ ФКП Росреестра по Ставропольскому краю.					
			Подготовка документации по проекту межевания осуществляется в целях обеспечения устойчивого развития территорий, установление границ земельных участков, предназначенных для комплексного благоустройства территории Кавказских минеральных вод с устройством велотерренкуров и дальнейшей работы по постановке земельных участков на кадастровый учёт.					
			Проект межевания разработан с учётом сложившейся планировочной организации прилегающих территорий, а также с учётом перспектив развития свободных от застройки территории.

2. Цели и задачи развития территории.

Проект межевания разработан в границах элементов планировочной структуры, установленных проектом планировки территории.

Задачами разработки проекта является обеспечение следующих требований:

- анализ фактического землепользования в районе проектирования;
- определение в соответствии с нормативными требованиями площадей земельных участков исходя из фактически сложившейся планировочной структуры района проектирования;
- установление зоны размещения объекта;
- определение местоположения образуемых и изменяемых границ земельных участков;
- установление зон с особыми условиями использования территории;
- обеспечение условий эксплуатации объектов, расположенных в районе проектирования в границах формируемых земельных участков.

3. Описание существующей градостроительной ситуации

3.1. Действующая система землепользования.

При разработке проекта межевания территории обеспечено соблюдение следующих требований:

- границы проектируемых земельных участков устанавливаются в зависимости от функционального назначения территориальной зоны и обеспечения условий эксплуатации объектов недвижимости, включая проезды, проходы к ним;
- границы существующих землепользований при разработке плана межевания не подлежат изменению за исключением случаев изъятия земель для государственных и общественных нужд в соответствии с законодательством или при согласовании землепользователя на изменение границ земельных участков.

На территории образуемых участков существующие сервитуты отсутствуют.

Проектируемые велотерренкуры расположены в I и II зонах санитарной (горно-санитарной) охраны месторождений минеральных вод, в границах государственного природного заказника краевого значения «Бештаугорский».

Таким образом, в устанавливаемую полосу отвода входят существующие линейные сооружения, полоса для которых не внесена в государственных кадастр недвижимости, тем сама является условной.

Охранные зоны, санитарно-защитные зоны объектов (в том числе объектов электроэнергетики, трубопроводного транспорта) представляют собой зоны с особыми условиями использования территории и особым режимом хозяйственной деятельности, обусловленными непосредственной близостью указанных объектов, ограничивающими или запрещающими те виды деятельности, которые несовместимы с целями установления зон (обеспечение сохранности, безопасного функционирования и эксплуатации объектов).

Для определения координат точек земной поверхности и для установления границ земельных участков на местности использовался метод спутниковых (геодезических) измерений. Система координат МСК-26 от СК-95.

Установление границ земельных участков на местности следует выполнять в соответствии с требованиями федерального законодательства, а также инструкции по проведению межевания.

Проектом межевания предусматривается образование земельных участков из государственной и муниципальной собственности в границах красных линий улиц, а также из земельных участков, находящихся в собственности физических или юридических лиц.

Формирование земельных участков из земель государственной собственности, не закрепленной за конкретными лицами выполнено согласно Федерального закона «О государственном кадастре недвижимости» принятого Государственной Думой от 24.07.2007 года №221-ФЗ.
